

We Can Save You \$\$\$ in Attorney's Fees

For those with non-complex legal issues, self-help legal services such as **At Your Service Legal Document Prep (AYSLDP)** are becoming a popular alternative to \$300 per hour attorney fees. While local city government does offer the public free services to help with legal forms, the process is often slow, limited and frustrating.

AYSLDP serves those customers who want to take control of their non-complex legal issues instead of turning them over to attorneys who often drive up costs unfairly. While we can't offer legal advice, what we can do is provide legal self-help information approved by an attorney in order for you to direct us to complete your legal forms. We'll then ultimately file your legal documents with the court on your behalf.

Types of Services AYSLDP Offers

At Your Service Legal Document Prep (AYSLDP) offers the type of services that can save you both time and money. Our customers are looking for convenient solutions to high attorney fees for their non-complex legal issues as well as ways to save themselves valuable time.

A typical **AYSLDP** customer is someone who has the smarts to know they don't need to pay an attorney \$300 per hour to address their non-complex legal issues. It's a fact attorneys often psyche out the public to believe they can't address legal issues without them. In today's growing self-help computer savvy culture, many are beginning to empower themselves with legal knowledge.

AYSLDP is part of the revolution of self-empowerment for individuals to take control of their legal issues by learning what they need to properly and economically address them.

In addition to Legal Document Assistance, we complement our services with Notary Public, Electronic Notarization, Process Server and Attorney Referral Services for those who may require legal advice.
